

Next step

Patient Safety Research

Agenda

1. Introduction by Jes Søgaard, Professor, Danish Institute for Health Services Research
2. Speak on Patient Safety Research by Ashish Jha, Associate Professor of Health Policy and Management, Harvard
3. Roundtable discussion on 6 areas of Patient Safety Research
4. Debate
5. Conclusions by Jes Søgaard

6 Areas of Patient Safety Research

1. Medication
2. Design
3. Human factors
4. Fall accidents
5. Safety indicators
6. Safety Culture

Topics for roundtable discussion

- Why do we need research on this problem?
 - If yes, what kind?
- What is the synergy in research with improvement work?
 - Is there any contradictions?
- What is the most important area for patient safety research in Denmark?
